

Request for Tier 2 Services

(Full fee structure available on our website at <http://esbf.unmc.edu>)

PI:

Protein:

Binding Partners:

Summary of services desired (short term aim of project):

Please check off desired services:

- Large quantity protein production; multiple batches
- Light scattering studies as necessary
- Protein concentration for crystallization
- Complex formation with a binding partner
- Crystallization screening: 3 commercial screens, 96 conditions each
- Additional screens as indicated by results
- Optimization of crystal growth
- Xray diffraction screening of preliminary crystals
- Data acquisition when crystal is suitable
- Protein preparation for NMR studies

I agree to the posted fees for these requested services.

Cost center to be used for charges:

Questions about these services can be directed to Gloria Borgstahl (9-8578) or Carol Kolar (9-5533)
